

Sistrade cooperates with Polish flexo association

Portuguese MIS software provider Sistrade has signed an agreement of cooperation with one of the most representative associations in the sector of printing and packaging in Poland, the Zrzeszenie Polskich Fleksografów (ZPF). The agreement was made during the official visit of the president of the Portuguese Republic to Poland and Slovakia in early September, in which Sistrade participated as part of a business group.

As a result of the agreement, Sistrade has confirmed its presence at an event in October organized by the ZPF to showcase its solutions to the Polish market.

Sistrade will demonstrate its technological solutions which include commercial management and estimates, mobile picking, mobile business, CRM, ebusiness, stocks management, real-time production tracking with automation and data acquisition, operations scheduling, quality control, equipment maintenance, between other functionalities.
