

Quality Control

WHY SISTRADE QUALITY CONTROL?

Quality Control ensures that services and products are compliant with the previously required specifications.

**BETTER
PRODUCTS**

**HIGHER
EFFICIENCY**

**INCREASED
PROFIT**

- TRACEABILITY
- IMPROVE PRODUCT QUALITY
- ERASE MANUFACTURING ERRORS
- TEST PRODUCTS
- REDUCED ROOM FOR ERROR
- ENSURE CONSISTENCY
- FULFIL QUALITY REQUIREMENTS

Quality Control

COSTS

- Non-conformities costs
- Immediate and reactive actions
- Global cost management
- Integration with accounting
- Distribution by cost centers

NON-CONFORMITIES

- Eliminate non-conformity suspicions
- Track what was inspected and tested
- Manage non-conformities
- Register non-conformity source and cause

TECHNICAL DATA SHEET

- Quality rules
- Recorded test values
- Control of technical datasheet versions

QUALITY NORMS & CERTIFICATES

- Internal certificated for conformity tests
- Reference values for product approval

INSPECTION & TEST

- Visual and instrumental tests
- Record inspections easily
- Automatically assign inspections

PRODUCT CONTROL

- Quality of all materials
- Management of inspections/tests
- Referred quality certificates

EQUIPMENT CALIBRATION

- Record of calibrations
- Historical analysis
- Instruments used
- Future inspections

SMARTSTATISTICS

- Material reception
- Semi-manufactured
- Finished product
- Auto monitoring
- Check list
